

Laboratoire de génétique et biologie cellulaire

LABORATORY OF GENETICS AND BIOLOGY OF THE CELL (LGBC)

Director: Isabelle GUENAL

Secretary: Emeric HERMANT

The laboratory

"Laboratoire de Génétique et Biologie Cellulaire" (LGBC) is a laboratory of the Université de Versailles Saint-Quentin-en-Yvelines (UVSQ) / Université Paris-Saclay in partnership with the École Pratique des Hautes Etudes (EPHE).

The LGBC is affiliated to the Graduate School "Life Sciences and Health" and to the Doctoral School "Structure and Dynamics of Living Systems".

We are members of the Société Française de Biologie Cellulaire, the Meetochondrie network, and the French Cell Death Research Network. We also develop close

collaborations with the UMR 1173 INSERM/UVSQ Infection et Inflammation teams.

Field

Molecular and cellular aspects of biology

Research topics

Our research topics are described here.

ADDITIONAL INFORMATION

- » The laboratory is attached to the Faculty of Science
- » Reference : UR 4589
- » Department : Biology, medicine, health
